## Why Choose Infinite Flight Booking Software?

Full-Featured, Advanced  
Web-Based Solution

Multi-Device  
Responsive Design

High-Performance,  
Low-Latency Booking

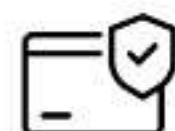

UX-Optimized Layouts for Search,  
Results, and  
Checkout Processes

Real-Time Flight Availability

Integrated Rewards and  
Loyalty Points System

Secure Payment System

Referral Code  
Functionality

## Technologies Used

### Node.js

High-speed, non-blocking performance for processing and responsiveness.

### Express.js

Flexible, minimalist framework for building APIs.

### React.js

User-focused interface for a smooth and intuitive user experience.

### MongoDB

Schema-less data storage for handling complex, evolving data structures.
